Simplicity and intelligence merge with Cleco's newest innovation in cordless tools. CellClutch™ delivers torque control for functional joints, programmable with up to seven stages to prevent cross thread errors, has RPM speed control and provides repeatability and fastening accuracy during the assembly tightening process.

Eliminate Over Torque Damage

Contactless electronic switch shuts off tightening rotation when required torque is reached.

Reduced Operator Error

Pre-set torque, "ok" "not ok" green and red lights make tool operation simple.

Eliminate cross threads and errors during rundowns with programmable speeds and strategies.
